

Technical data sheet

Ultramatt premium

	Product description
Characteristics:	 Dull mat latex paint of premium quality Durable High degree of whiteness Fine and homogeneous structure for very smooth surfaces Keeps structure Very good application characteristics Extreme open time during application for additional safety, especially for wide continuous areas Very low spreading rate For interior use Free of solvents and harmful emissions Without the addition of preservatives *
DIN EN 13300:	 Wet scrub resistance: R-class 1 Contrast ratio: hiding power H₁₀-class 1 (> 99,5) at a spreading rate of 165 ml/m² Gloss level: G4 dull mat Maximum particle (grit) size: S1 fine (< 100 μm)
	Material
Application Area:	Material For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and dispersion binder.
Application Area: Binding Agent:	For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and
	For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and dispersion binder.
Binding Agent:	For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and dispersion binder. Special resin dispersion
Binding Agent: Colour:	For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and dispersion binder. Special resin dispersion White
Binding Agent: Colour: Content of Solids:	For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and dispersion binder. Special resin dispersion White Approx. 60 %
Binding Agent: Colour: Content of Solids: Specific gravity:	For interior use on new and old solid undergrounds such as stucco, concrete, gypsum board (without lignin marks) and glass fibre wall coatings. For reworking of solid surfaces based on silicate, dispersion silicate, silicone resin and dispersion binder. Special resin dispersion White Approx. 60 % 1.43 g/cm ³

	Application Characteristics
Application:	Brush / roller / spray (airless).
Underground:	Needs to be clean, dry, and solid. Otherwise use JONAS Hydro-Haft- & Tiefgrund or JONAS Acryl-Tiefgrund or JONAS Hydro PowerGrip Gel first to consolidate the underground. For underground treatment and application VOB, part C, DIN 18363 and the relevant BFS information must be observed.
Coating build-up:	Priming coat: No dilution or dilute product with a maximum of 5% water. Final coating: use product without dilu- tion.

JONAS Farben GmbH

Technical data sheet

JONAS Ultramatt premium

	Application Characteristics
Spreading rate per coating:	Approx. 150 ml/m ² on smooth underground (if necessary test on the wall).
Application temperature:	At least + 5°C (Degrees Celsius) for air and underground during application and drying.
Drying:	The surface of the coating is dry and can be painted over after 8 - 10 hours (at a temperature of 20 °C and a rela- tive atmospheric humidity of 65 %). High humidity, low temperatures and low air exchange extend the hardening and drying time.
Tinting:	Product can be tinted with JONAS Allcolor Vollton- und Abtönfarben. Tinting may lead to deviations in the tech- nical data, also with respect to contents of preservatives.
	 Colour accuracy: property conditions have an influence on colour accuracy and the uniformity of colour. The following conditions should be avoided: a. Irregularly sucking substrate b. Different surface humidity in the substrate c. Patches with different alkalinity and / or ingredients from the substrate
Cleaning of tools:	Clean with water immediately after use.
	General information
Characteries .	
Storage:	Cool, but not freezing.
Shelf-life:	Can be stored for at least 12 months after date of filling (see additional sticker) if stored properly in the unopened original packaging.
Art.No. and description:	15 30 007 JONAS Ultramatt premium
Packaging:	51
Ingredients:	Resin dispersion, white pigment, calcium carbonate, silicate, water, additives.
Without preservatives:	* o.K., i.e. we do not add any preservatives during production of this product.
Safety:	Please follow the instructions of the safety data sheet.
Labelling:	This product is not classified according to EU regulation No 1272/2008 [CLP].
GISCODE:	BSW10
VOC contents:	EU-Limit for the product Kat. A/a: 30 g/l (2010). This product contains < 1 g/l VOC.
Waste disposal:	Empty containers can be disposed for recycling. Any dried residues of material can be disposed of as construction waste or together with domestic garbage. Containers with liquid material residues must be disposed of according to local regulations. For further information, please contact your local waste authority.
Advice acc. to CLP:	Keep out of reach of children. Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist. Wear appropriate respiratory protection (full mask / half mask equipped with filter type A2/P2). Avoid eating, drinking and smoking during use of the product. Ensure good ventilation during and after application. In case of contact with eyes or skin, rinse immediately with plenty of water. Do not empty into drains or water courses. Safety data sheet available on request.
